# Inside DINKLES®

## World's Greatest Marching Shoes

Triad Heel™ is designed for corps-style marching and eliminates heel wobble. The natural extension (dorsi-flexion) of a human's ankle is 20°. Even at an angle of 60°, the stability of the Triad Heel™ is unmatched. It's a DINKLES® exclusive providing a high degree of stability, balance and safety while marching.

- 1 RUNNER'S ORTHO CUP.** Molds to the shape of the foot creating a custom fit. Provides extra arch support and comfort.
- 2 HEEL NOTCH.** Holds a spat securely in place.
- 3 TEXON® INSOLE BOARD.** Provides a sturdy foundation which prevents the shoe from breaking down.
- 4 TRIAD HEEL™ DESIGN.** This heel is designed with two stabilizing points that allow the heel to roll smoothly with no wobble.
- 5 NI-LEX® TWO-ZONE COMFORT LINING.** Two working layers pull moisture away from the foot keeping it dry and comfortable.

- 6 FOREPART PAD AND FLEX FEATURE.** A foam pad is embedded in the insole board to provide extra cushion and flexibility where the stress of marching is greatest, reducing the shoe's "break-in" period.

- 7 FOAM INSERT.** Custom insert in each sole for extra cushion preventing fatigue and burning in the ball of the foot.

- 8 ACTIVE RUBBER CUSHION.** Gives your foot rebound for every step.

- 9 RUBBER BLENDED (TPR) SOLE.** Provides maximum traction, cushion and wear.

- 10 OFFICIAL SEAL OF HARRY L. DINKLE.** Assurance of superb, quality construction from the "World's Greatest Band Director."

- 11 FLEX BARS.** These are made to take shock away from the heels and knees.

**DINKLES® EXCLUSIVE**

# A Message from the President

It's hard to believe that DINKLES have been around for 37 years. Over the years, we've always been attentive to our customer's needs. We have added new products to keep up with the demands of the marching activity and we have even refined some of our existing products as we better understood the needs of today's marching band director.

I am proud to say that after all these years DINKLES have stood the test of time and have become "True Classics," and why would we change a classic? Some of you may be old enough to remember when Coca Cola changed their formula. It did not take long for the customers to demand it be changed back. Classic Coke will never change.

DINKLES may not be a classic as a Sousa march or the lines of a 1957 Chevy Bel Air, but for 37 years we have had one singular focus: We have always provided the highest quality and most affordable marching shoes on the planet.

To be a classic is not a label we just put on ourselves. Year in and year out, DINKLES earned this recognition by maintaining the values that helped start this company.

Once again I want to thank our customers who have supported us over the years and look forward to providing your performers with the very best products again this year. For the new customers looking to make a switch or buy shoes for the first time, we can't wait to help you. We know once you try DINKLES you will be with us for many years.

I invite you review our 2023-24 brochure. You will see the quality shoes and gloves that we have provided for the last 37 years. We hope you'll make the decision to march in DINKLES and see what it is like to march in a "true classic".

Sincerely,

Jeffrey Savoca  
President
